DWS Electrostatic Air Cleaner

- Great for removing smoke, fumes & oil mist created by:
- Stress relieving ovens
 - Heat treating ovens
 - EDM processes
 - Lasers
 - Plasma cutting
 - CNC machining equipment

The DWS electrostatic air cleaners are designed to help provide clean air in the work environment by removing contaminants. The air cleaner will remove 99% of smoke, oil mist & fumes in the air. The active carbon filter will help to reduce odors.

Help protect the health of your employees and the environment by adding an air cleaner to your equipment. We keep many sizes and types in stock and ready to ship from the factory.

Model	Max Flow (m3/h)	Duct (mm)	Dims (mm) LxWxH	Pressure (Pa)
DWS-750-200	1200 - 1600	200	1300 X 720 X 1050	200
DWS-1100-200	2000 - 2400	200	1950 x 720 x 1150	200
DWS-2200-300	2800 - 3200	300	2450 x 950 x 1150	200
DWS-2200-300+	3200 - 3600	300	2450 x 950 x 1150	200
